An officer observed a vehicle traveling at a high rate of speed. The vehicle speed was confirmed by stationary radar at 40 mph in a clearly posted 30 mph zone. The officer stopped the vehicle in the 400 block of Winding Way. The officer asked the driver for his driver's license and insurance. The driver told the officer he did not have a license, but did have a Texas ID card. The driver stated he needed to pay a fee in order to get his license back, but he did have a license. The officer returned to the patrol car and did a computer check on the driver. The computer showed that the driver's identification card was suspended and the officer did not show that the driver had a driver's license. The officer informed the driver that he would need to call for a ride due to his license situation. The driver called his parents to pick him up and drive the vehicle away. The driver was issued a few citations and was then released to his parents.

Offense: Assist Public Utilities

Date: 08.10.12

Time: 1620 hours

Location: 500 blk West Bitters Road

An officer was told that there was a down power line at a local business. The officer drove around the business and saw a broken tree lying in front of a business. The officer walked to the business and saw a tree that was broken in half. The top half brought down a nearby electrical pole. The wires were tangled in the branches and hanging over the deck floor. The officer requested City Public Service to the location. A second officer arrived to assist and started informing business owners of the situation. Some of the business owners decided to close their shops while other stores remained open for business. Once CPS arrived, the officer was informed that it was not safe for anyone to be in the area. The officer informed the remaining open businesses and they chose to close for the remainder of the day. CPS worked until the problem was resolved.
