Officers received a call for a burglar alarm at a local auto parts store. Upon arrival, officers were met by the business owner of the business next door. The owner reported he had stopped by his business to do some paperwork. When he drove up to his business, he saw a male kneeling down by the door of the auto parts store. That male fled the location as another male exited the

business. Both subjects jumped the fence behind the business and fled west. Officers learned the males had broken a window to gain entry into the business. Officers searched the building for other suspects but did not find anyone inside. The business manager arrived and checked the inside of the building. He reported nothing had been stolen. It appears the business owner next door had foiled the burglary. Officers gathered evidence at the scene and resumed patrol. This case is under investigation.

The HCV officer traveled to the intersection of Winding Way and San Pedro to wait for the fleeing vehicle to drive by. The HCV officer heard that the vehicle had turned onto Brook Hollow. The HCV officer headed that direction to assist the pursuing officer. A short time after, the Shavano Park officer said the suspect had bailed out of the car and had run into a green belt. When the HCV officer arrived, the Shavano Park officer told him he had injured his ankle.
